Consolidated Storage Program (CSP) Overview

General Information Brief

Consolidated Storage Program General Overview

- Combines Infantry Combat Equipment (ICE), Chemical, Biological, Radiological, Nuclear (CBRN) Equipment, Special Training Allowance Pool (STAP) items, and eventually Soft Walled Shelters and Camouflage Netting under the Individual Issue Facility (IIF) and Unit Issue Facility (UIF) paradigm.

Consolidated Storage Program General Overview

- Moves away from a commodity level management style into an integrated end user approach.
- Allows an individual Marine to get all of his individual protective equipment at ONE facility.
- Allows deploying units to pick up all of their bulk issue items in a single facility as well.
- Facilitates support to the customers by creating a one stop shopping experience. “Wal-Mart for Warriors.”
